

Name_____

Hidden Polygons

On the triangle grid paper below, color or shade in the polygons listed. Please color in whole triangles, not parts of triangles, unless you are using the parts along the edges. You can use the edges, and you will need to use them to find all the polygons! Mark each polygon by writing in the number or drawing a line to match the polygon to its name.

- | | |
|--|--------------|
| 1. Equilateral triangle | 6. Rectangle |
| 2. Right triangle | 7. Trapezoid |
| 3. Isosceles triangle | 8. Pentagon |
| 4. Parallelogram
(not a rectangle or rhombus) | 9. Hexagon |
| 5. Rhombus | 10. Octagon |
| | 11. Decagon |
